

I listen to K-LOVE on a daily basis on 100.1 FM in Escondido, California and this is the only station that I listen to. That is because there is no other local station that provides me with the kind of encouragement and positive messages that K-LOVE does. Plus they have the best music around. If K-LOVE weren't there, there would be a tremendous hole that no other local station can fill. It is comforting to know that at least this one station will play music and commentary by DJ's that parents know is safe for their kids to listen to. We need that desperately in our culture today! If K-LOVE was displaced by a LPFM I know our community would have a severely depleted variety of radio options from which to choose. K-LOVE serves the public interest in so many ways...by encouraging, uplifting, educating and entertaining. But most importantly, by keeping our hearts and minds on "the real thing"...Jesus Christ, as we drive and work and carry out all the day to day tasks, which can oftentimes get very overwhelming. We NEED this radio station! More and more people are tuning into this special place on their dials everyday. Don't take that away from us, please. Thank you for your attention and consideration.
